

Vigilant Solutions - Migration and Integration Questionnaire:

- Who is being migrated (ie. Agency Name)?
- What is the Agency name on LEARN?
- Who is the IT point of contact for migration and info?
- What is their availability or work hours?
- What database schema is currently installed (ex. Elsas, Pagis, Pips, Genetech, etc.)?
- What platform is currently installed (ex. Windows Server 2K8 R2 x64 w/ SQL Server 2K8 R2 x64)?
- What is being migrated and/or integrated (ie. Server/Client/etc)?
 - If client integration, how many clients installations are required?
 - If server migration and integration, how many clients are part of server?
- How much total data is being migrated (ie. #records and size of database)?
- How much data is being uploaded in last month (ie. #records and size of database)?
- What is their desired retention policy on Detections vs. Hits?
- Have the Systems been created in LEARN that will be used for Migration services?
 - If so, list them
- Have the Users been created in LEARN that will be used for Migration services?
 - If so, list them
- If size is greater than (1) million records, we will want to do a backup of database and recovery effort.
 - Where can we send an external HDD?
